# SKATE THE KEYSTONE STATE

Spinning Wheels skate park is located in Reading, PA. It consists of two small bowls, a big bowl, a fun snake run, a slalom run, and a pool (term used loosely).

The two small bowls are really fun to mess around in. The park is blacktop except for the pool. The blacktop is coated with a sealer. Excellent for lip slides and ollie pops.

The snake run is really cool. Excellent momentum can be obtained here! The big bowl has an extension on it that can be used to get air that would make Gumby stiff.

The pool is about 8 feet deep. There is no more coping on it due to ~~thieves~~. (You know who you are.) This pool's transition is so weird, it would make Penelope Pitstop hesitant. One side has about 3 feet of vert, the other side has about one foot. It has a canyon, but there is no transition on its walls. The pool definitely has its low points, but considering it was built 4 years ago by hand, it's not that bad!!

The slalom run is hot if you're into slalom, but at the end of it is a vertical wall with 3 feet of vert. Hitting an 8 foot high wall with a slalom board is like trying to snowboard in your freezer. The two are just not compatible.

Overall, the park is hot for a first generation park. All it needs is a halfpipe to keep

interest flowing.

Other parks in PA are Thunderb'ohm in York, which is made of blacktop. It has many bowls with vertical extensions and vertical ramps. There are also parks in Carlyle and Pittsburg.

## Punk Rock Worries Reds

**T**he Communist Party daily in Czechoslovakia, *Rude Pravo*, is demanding strict control of groups that play punk rock music. The newspaper accuses them of perverting Czech youth into "a philosophy of nihilism, waste and a cynical approach to life."

Its editors are outraged not only by the names these groups have given themselves—The Bastards, Yellow Dog, and Hard Currency Allowance—but also by the titles and lyrics of their songs. Two titles they find particularly offensive are

"Baby, Baby, Give Me a Cadillac" and "Scram, S...head, Our Lord Is King and His Name Is Heroin."

The newspaper says punk rock musicians "propagate drugs, vulgarize love relationships and express opinions that are totally foreign to us." It describes as Western and decadent such lyrics as, "She's got a dirty back, does not drink or smoke or use salt, but she likes it."

A few years ago, Czech authorities jailed two underground music groups, DG 307 and Plastic People of the Universe, for playing "subversive music."

## THE FACTION "NO HIDDEN MESSAGES"

Yowww!! Wot an album. True blue skate music from Caballero and the boys. Gavin Obrien's vocals shred. Can this guy talk faster than Alan Gelfand? Adam Bomb delivers hot guitar licks. Best cuts include "Why save the whales," "Skate and Destroy," "Fast Food Diet," and many others. Send \$6 to: The Faction, 2349 Carlton, San Jose, Cal. 95124. A poster, lyrics and a sticker are included. Buy it before the price of tapioca goes up!!

## THE CIRCLE JERKS "GOLDEN SHOWER OF HITS"

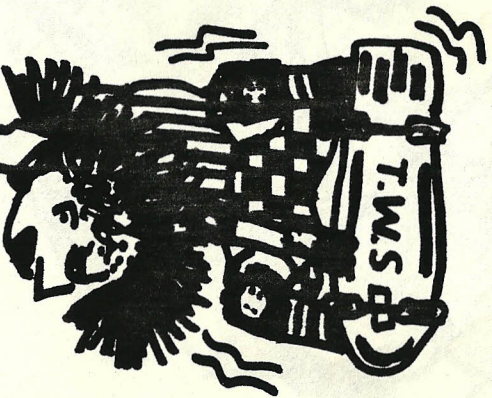

An extremely hot disc from one of my all-time faves. They haven't sold out or mellowed out! Good skate music! "Parade of the Horribles" "Coup d'etat," and "Red blanket room" are all songs that make you want to do 16ft. airs!! The song "Golden shower of hits" is a classic. "Love will keep us together" and "Afternoon Delight" are just some of the songs they do their way. Lyrics included. The only low point is that the album tends to run on the short side. Julie even liked this one!!

RUDE AWAKENING "SLAVES OF FREEDOM" (cassette)

Formerly called Youth in Asia, Delaware's Rude Awakening rips through 18 songs on their debut cassette. Aggressive hardcore that does not sound like a blur of noise. Lead singer Tim Holst delivers the punch with blistering vocals. Best cuts are "Sid's Dead," "Good clean fun," "Fine with me," and "Last laugh." The band is presently on tour. Don't miss 'em!! To obtain their cassette, see ad in the mag.

PA. SKATE VGT

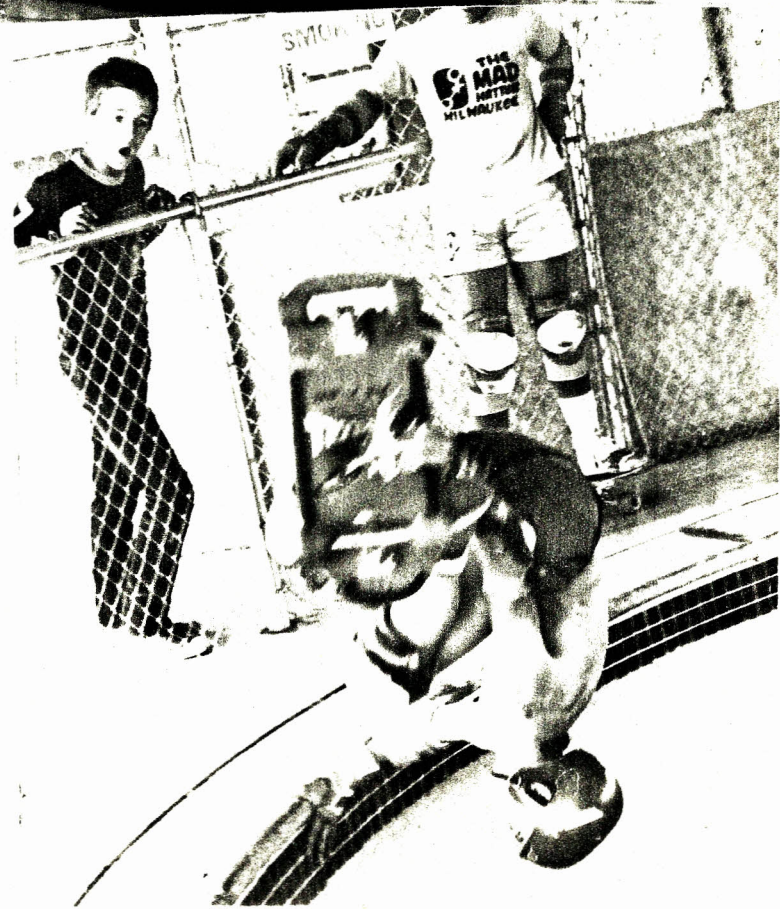

PUBLIC IMAGE LIMITED "LIVE IN TOKYO"

Many faves are included in this double album. "Bad Life," "Solitaire," "Death Disco," "Religion" and their new killer "(This is not a) Love Song." The sound quality is excellent. The only low point is that all of the tunes could have been crammed on 1 album considering there is less than 45 minutes of music. Thus the price would have been more reasonable. I guess it's just another swindle. A poster with lyrics is included.

# RAD READERS WRITE...

PA Skate Vū:

Here are some of the negatives of the skaters of MeShred. Chuck Treece, Dickem Greene, Jason Franks, Dave Pugh. Please put these negatives to good use. They may be a bit dark, so try to lighten them up.

Your mag shreds so heavily that I nearly started to skate in my room. Good articles, good photos, and a good mag. Keep up the great work.

PA Skate Vū:

Here are some or all of my B/W Pics. I hope they're enough to get the mag out. I just bought the Circle Jerks record. For eight bucks it wasn't all that great. Thanks for the Gullwing stickers. I put 'em on the ramp. We are thinking of cutting about two feet of the top and making rollout decks. If we do that the ramp will be small, but much more ripable. Lots of rock-n-roll lipwork tricks! My favorite! The Gullwing wheels sound hot. I ride B52's also. I heard something about slamdancing is illegal in Minn. because of a DK gig.

Like I said before, I hope the pics help to get the mag out!

Later- Never stop skatin' no matter what!
